## SUMMARY

Purdue MEM graduate and PMP-certified Technical Program Manager with 4+ years at Amazon Robotics, Wipro, and HP leading cross-functional programs across enterprise systems, automation, and digital transformation

## PROFESSIONAL EXPERIENCE

### Amazon Robotics

Austin, TX

*Technical Program Manager Co-op, Business Application Systems*

Jan 2025 – Dec 2025

- Led Oracle to SAP digital transformation planning across 4 workstreams, maintaining RAID logs, ownership mapping, and weekly leadership dashboards in Asana to keep **15+** stakeholders aligned with **zero missed milestones** through BUILD phase
- Drove automation of the manual sales-order update process, partnering with engineering team to deliver a bulk update workflow across **400+** daily transactions and **saving \$1.7M** in annual labor costs
- Built a real-time approval dashboard using Oracle APEX and Kinaxis, replacing stale Tableau data and reducing PO approval cycle from **15–20 days to 1–2 days**
- Owned end-to-end SIT/UAT across 3 test cycles for a Procure-to-Pay (P2P) cost validation tool governing 300+ monthly transactions, coordinating defect triage and RCA with engineering and driving a clean release with **zero P1 incidents**
- Identified missing Incoterms in the ERP system as the root cause of recurring financial close failures across 5 teams, facilitated cross-functional alignment and drove a fix that eliminated **250–500 hours** of annual close effort
- Launched a self-service chatbot using Cedric (Amazon's internal automation tool) to resolve stuck purchase-order approvals, automatically rerouting to the correct approvers, reducing Application Management Support (AMS) tickets by **15%**

### Wipro Limited

Bangalore, India

*Sr. ERP Consultant, Digital Transformation*

Apr 2022 – Jun 2024

- Delivered **3 full-lifecycle** Oracle EBS R12.2 implementations from fit-gap and Conference Room Pilot (CRP) through SIT/UAT, cutover, and hypercare, coordinating across Finance, Procurement, and engineering to go live with zero P1 incidents
- Led P2P transformation for GUVNL across **7 subsidiaries** - Designed Oracle AME approval workflow across 6 approval levels, cut PO TAT from **8 to 3 days** and closed a 2-year government audit finding
- Designed three-way match exception detection in Oracle EBS Accounts Payable with Finance and engineering, reducing monthly invoice holds from **15-20 to under 5** and eliminating a **4-day** reconciliation process across **200+ monthly** invoices
- Built an Oracle APEX payment aging dashboard tracking **\$1.8M in vendor obligations**, reduced vendor escalation calls by 60% and enabled recovery of **\$0.8M in early-payment discounts** in Q1 post go-live
- Standardized program documentation by authoring **40+ functional specifications and BR100 configuration documents** - contractual baseline for offshore team of 8, reducing post-go-live change requests by **35%**

### HP Inc.

Bangalore, India

*Business Analyst, Customer Support Solutions*

Aug 2021 – Apr 2022

- Built Power BI dashboards tracking ticket volume, resolution time, and escalation rates for the Customer Support Solutions team, reducing average customer response time by **29%**
- Interviewed 10+ support agents about recurring issues, translating findings into process improvements adopted across the team
- Reorganized NPI launch tracking in Jira across product, marketing, and operations reducing time to market for HP printer by **6 weeks**

## EDUCATION

**Purdue University** - Master of Science - Engineering Management (MEM), Industrial Engineering **GPA 3.7/4.0**

May 2026

Coursework: Project Management, Lean Manufacturing, Tech Product Management, Global Supply Chain Management

**Gujarat Technological University** - Bachelor of Engineering - Mechanical Engineering **GPA 3.89/4.0**

Jun 2021

Coursework: Operational Research, Engineering Graphics, Manufacturing Operations

## CAPSTONE PROJECTS

**ClassPoint** - Builder, AI Grading Tool

Feb 2026 – May 2026

- Built an AI grading tool using Python and Claude API, replacing a 2-hour manual workflow - saving 45 hours per semester for Prof.

**SunSpectra** - Strategy Consultant, Manufacturing Optimization

Feb 2026 – May 2026

- Led a team of 5 to map the bottle-filling production line using Visio, identified changeover as primary bottleneck - presented layout redesign projected to improve throughput by **18%** and cut changeover TAT by **25%**

**TVF Textile Firm** - Operations Consultant, Supply Chain Optimization

Aug 2024 – Dec 2024

- Built a Python Monte Carlo freight forecasting model addressing spot pricing volatility - projected **\$150K in annual savings**

## SKILLS & CERTIFICATIONS

**Program Management:** Agile/Scrum | SDLC | Stakeholder Management | Requirements Gathering | Risk Management | Change Management | Fit-Gap Analysis | CRP | SIT/UAT | Cutover | Hypercare | Jira | Visio | AIM/OUM

**Enterprise Systems & Platforms:** Oracle EBS R12.2 (iProcurement, PO, AP, AME, GL) | SAP S/4HANA | SAP Ariba | Coupa | SAP BTP | Microsoft Dynamics 365 **Data & Analytics:** SQL | Python | Power BI (DAX) | Tableau | Oracle APEX | OTBI | Visio

**Certifications:** [PMP®](#) | [SAP S/4HANA Sourcing & Procurement](#) | [SAP ABAP Cloud](#) | [SAP Ariba](#) | [Python](#) | Microsoft Azure AZ-900 | DP-300
