Sunnyvale, CA | 765-409-9862 | mahesh7gidwani@outlook.com | [LinkedIn](#)

SUMMARY

PMP-certified Technical Program Manager with 4+ years driving cross-functional hardware, product development, and supply chain programs. Skilled in program scheduling, critical-path execution, risk management, design reviews, issue resolution, supplier coordination, and milestone delivery across engineering teams and global stakeholders.

WORK EXPERIENCE

Applied Materials | *Technical Program Manager II, C&F Group*

Sep 2026 - Present

- Own the end-to-end program schedule, risk register, and executive status reporting for nanocrystalline diamond wafer thermal interface material hardware development as the C&F group's first dedicated Technical Program Manager.
- Drive critical-path closure across process engineering, mechanical engineering, and supplier teams by converting open technical issues into Jira-tracked actions with named owners and target dates, improving follow-through and issue visibility.
- Establish the program's cross-functional operating cadence for design reviews, risk triage, and milestone gates, improving delivery coordination for a team previously operating without technical program management coverage.

Amazon Robotics | *Technical Program Manager Co-op, Business Application Systems*

Jan 2025 - Dec 2025

- Governed the project schedule and Risks, Actions, Issues, and Decisions (RAID) log across four enterprise transformation workstreams, keeping 15+ stakeholders aligned with zero missed milestones through the BUILD phase.
- Engineered a real-time approval dashboard on Oracle APEX and Kinaxis, reducing purchase order approval time from 15-20 days to 1-2 days.
- Automated bulk sales-order line updates through WebADI with engineering, saving \$1.7M annually and eliminating 10 minutes of manual editing per line.
- Traced \$1M+ in fiscal year 2022 landed-cost misallocations to missing Incoterm fields and authored an automation proposal estimated to save 250-500 hours of annual close effort.

Wipro Limited | *Sr. ERP Consultant, Digital Transformation*

Apr 2022 - Jun 2024

- Delivered three full-lifecycle enterprise system implementations from fit-gap analysis through Conference Room Pilot (CRP), System Integration Testing (SIT), User Acceptance Testing (UAT), cutover, and hypercare, going live with zero Priority 1 incidents.
- Governed approval workflows across six approval levels for GUVNL's seven subsidiaries, reducing purchase order cycle time from 8 to 3 days and closing a two-year government audit finding.
- Built an Oracle APEX payment-aging dashboard tracking \$1.8M in vendor obligations, reducing escalation calls by 60% and recovering \$0.8M in early-payment discounts.
- Authored 40+ functional specifications and BR100 documents as the contractual baseline for an offshore team of eight, reducing post-go-live change requests by 35%.

HP Inc. | *Business Analyst, Customer Support Solutions*

Aug 2021 - Apr 2022

- Reorganized New Product Introduction (NPI) launch tracking in Jira across product, marketing, and operations, reducing time to market for an HP printer by six weeks.
- Built Power BI dashboards tracking ticket volume, resolution time, and escalation rates, reducing average customer response time by 29%.

EDUCATION

Purdue University, Master of Science - Engineering Management (MEM), Industrial Engineering, GPA 3.7/4.0

May 2026

Gujarat Technological University, Bachelor of Engineering, Mechanical Engineering, GPA 3.89/4.0

Jun 2021

CAPSTONE PROJECTS

Sunspectra - Manufacturing Optimization

Feb 2026 - May 2026

Strategy Consultant

- Mapped a bottle-filling production line in Microsoft Project with a five-person team, managing project timelines and proposing a layout redesign projected to increase throughput by 18% and reduce changeover time by 25%.

TVF Textile Firm - Supply Chain Optimization

Aug 2024 - Dec 2024

Operations Consultant

- Built a Python Monte Carlo freight forecasting model with a five-person team to support supply chain decisions and project \$150K in annual savings amid volatile spot pricing.

SKILLS & CERTIFICATIONS

- **Skills:** Microsoft Power BI, SQL/PL-SQL, Python, Linux, Microsoft Office
- **Program Management:** Program Scheduling, Critical Path, RAID, Risk Management, Stakeholder Management, Agile/Scrum, SDLC, Fit-Gap, CRP, SIT/UAT, Cutover, Hypercare, Change Management, Jira, Asana, MS Project, Technical Program Management, Hardware Development, Product Development Process, Confluence
- **Systems & Platforms:** Oracle EBS R12.2 (iProcurement, PO, AP, AME, GL), SAP S/4HANA, SAP Ariba, Coupa, SAP BTP, Kinaxis, Microsoft Dynamics 365
- **Data & Analytics:** SQL, PL/SQL, Python, Power BI, Oracle APEX, WebADI, Linux
- **Interior Systems:** Materials, Processes & Technologies, Product Development Lifecycle

PMP® Certified | SAP Sourcing & Procurement | SAP ABAP | SAP Ariba | Microsoft Power BI | SQL/PL-SQL | Python | Linux | Microsoft Azure AZ-900
